

354 Jasmine Lane Tryon, NC

Hidden gem on Jasmine Lane with year round mountain views! This beautiful property is private but not secluded. Ideally located just minutes from I26 and amenities. Recent updates include roof, windows, kitchen and baths. Partially finished walk out basement has a bathroom and it's own private covered patio. Enjoy your morning coffee on the screened porch while watching wildlife and amazing views. Lots of deer, turkeys and even white squirrels. Be sure to check out the garage. You won't be disappointed. With over 10 acres this property offers endless possibilities including the option to subdivide and split off a few acres for another homesite. This is a rare find.
